Additional Program Details and Qualifications: All Agency products sold are on behalf of BASF. All sales are final. No returns. Rebate will be based upon reported sales from the BASF authorized agent(s). This program applies only to qualified end-user professionals (golf, greenhouse, L&L, nursery, ornamental, sports turf, sod farms, municipalities, and parks & rec). Multiple sales orders for one customer are cumulative and will qualify if ordered between program dates and from any authorized BASF agent(s). A qualifying October purchase of at least \$2,000 locks end user to October rebate column for duration of the Early Order Program. Non-qualifying October purchases of less than \$2,000 will be counted toward any qualifying purchases from November 1 - December 9 and will be rewarded at the November 1 - December 9 percentage. Products must be purchased, invoiced and delivered between the program dates. No exceptions. The redemption value of qualified non-agency products will be used to determine end user total purchase and rebate earned. End user must be in good standing with agent to receive special promotional terms. All agency terms offered at the agent's discretion. All agency products invoiced between October 1, 2017 and January 31, 2018 will receive June 9, 2018 terms for the end user. All agency products invoiced after January 31, 2018 will receive net 60 days for the end user. Terms for qualifying non-agency products are determined by a BASF authorized distributor. Qualified end users will receive a rebate on the total invoiced dollar amount (excluding taxes) of qualified products purchased from an authorized BASF T&O agent. All rebates will appear as a credit on the end user's account with the agent who processed the order. EOP credit will become available on 7/31/18 and can be applied only to new purchases of agronomic inputs or related products. If an end user purchases from more than one agent, the rebate will be applied to the respective agent based on percent purchase from each agent. All products may not be registered for sale or use in all states. Please check with your state or local Extension Service.
