

LET THE BENEFITS OF FLEET®

SOAK IN!

Fleet® is great for moving water off the surface and distributing it into the root zone – with these benefits:

- Moves water into the root zone
- Distributing agent
- Combats salt build-up
- Provides consistent performance over application interval
- Helps minimize the key cause of LDS
- Provides fast and firm putting surfaces
- Improves deep moisture penetration
- Improves uniform moisture distribution
- Provides hydration at all soil depths
- Improves soil oxygen

Build a strong foundation and maintain it all season long.

From water distribution to facilitating sodium displacement, Fleet® is the best choice for fast and firm playing surfaces. Build your turfgrass foundation using Fleet®, and you'll see improved playing conditions, healthier turf and stronger roots.
