

# 15-0-0 Neutralizer

**Harrell's**MAX  
LIQUID FOLIAR NUTRITIONALS

*Harrell's 15-0-0 Neutralizer is a highly effective liquid formulation designed to reduce irrigation water pH and bicarbonates.*

## PRODUCT INFORMATION

Harrell's MAX 15-0-0 Neutralizer is a liquid injectable fertilizer that is designed to reduce the pH of irrigation water. Harrell'sMAX 15-0-0 Neutralizer is a combination of Urea and Sulfuric Acid. Harrell'sMAX 15-0-0 rapidly modifies irrigation pH and easily disrupts bicarbonates which negatively impact overall plant health.

## PRODUCT OVERVIEW

- Designed to reduce pH in irrigation water
- Designed to reduce negative properties of soil with high pH and bicarbonates

## GUARANTEED ANALYSIS

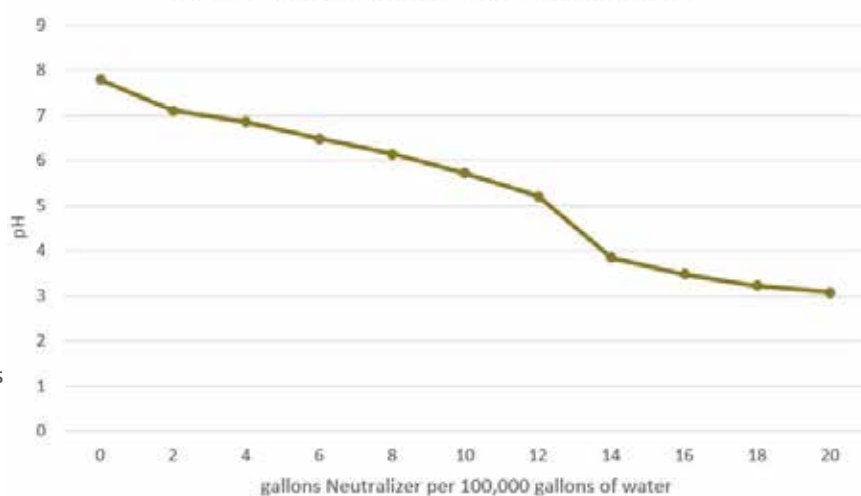

Total Nitrogen (N) ..... 15.00%  
15.00% Urea Nitrogen\*  
Sulfur (S) ..... 16.00%  
16.00% Combined Sulfur

*Derived From: Urea and Sulfuric acid*

## RECOMMENDED RATES

Injection: 5-30 gallons/100,000 gallons water
