

2013 GreenTrust™ Award® Fire Ant Bait Program

The 2013 GreenTrust Award Fire Ant Bait Program is a great way to take advantage of Award insecticide's proven performance and be rewarded for your purchases. Here's how to participate:

**Purchase Award Fire Ant Bait from a Syngenta Authorized Distributor
between October 1, 2012 and September 30, 2013.**

AWARD GUARANTEE

With Award, Syngenta guarantees you will achieve control of active mounds within a minimum period of eight weeks after your second application. If not, we will replace your purchase of Award as described in this Program. See your Syngenta Territory Manager or distributor for details.

Syngenta will guarantee 90% control of fire ants under the following conditions: You must have made at least two applications, one spring and one fall, at 1.5 lb/A per application. In geographies Syngenta deems to be extreme temperature zones, such as southern Florida and the Rio Grande Valley of Texas, this Guarantee applies only after three applications at 1.5 lb/A per application have been made over a nine-month period. In the event Syngenta determines (i) you have not achieved 90% control and (ii) you have complied with the terms and conditions described in this Program, Syngenta will replace your purchase of Award with additional Award product equivalent to the quantity necessary to retreat the acres where control was not achieved.
