

Harrell's Mid-Atlantic Seed Guide

ELITE SUNNY™ MIXTURE #830504P

- 35% Gray Hawk Perennial Ryegrass
 - 35% Full Moon Kentucky Bluegrass
 - 30% Enchantment or Carson Chewings Fescue
 - Superior Seeding vigor and establishment
 - Broadly adapted to varying maintenance levels
 - Performs well in sun or shade conditions
 - Very good cold tolerance
- 200-250#/acre new seeding, 100-125#/acre interseeded

GAME DAY MIXTURE® #830282P

- 50% Gray Hawk Perennial Ryegrass
 - 50% Full Moon Kentucky Bluegrass
 - Exceptional wear tolerance and recovery
 - Tolerates mowing heights down to 3/4"
 - Rich, dark green color and turf density
 - Quick establishment, great for overseeding
- 200-250#/acre new seeding, 100-125#/acre interseeded

HARRELL'S PREMIUM RYE BLEND #830283P

- 40% Gray Hawk Perennial Ryegrass *Apron/Maxim Treated*
 - 30% Rainwater Perennial Ryegrass *#830266P*
 - 30% Gray Fox Perennial Ryegrass** *Untreated*
 - Combines 3 turf-type, fine-textured varieties
 - Excellent dark green color, quick to germinate and establish
 - Clean mowing throughout the growing season, can be mowed as closely as 1/2"
 - Available treated
 - Very Grey Leaf Spot resistant
- 325-400#/acre new seeding, 175-225#/acre interseeded

**This variety subject to substitution based on availability.
Will not affect TWCA certification of the blend or mixture.

MATRIX PLUS MIXTURE #830446P

- 45% Saltillo Tall Fescue
 - 45% Rain Dance Tall Fescue
 - 10% Jumpstart Kentucky Bluegrass
 - Very deep rooted for excellent drought tolerance
 - Fine textured, and dark green color
 - Establishes quickly
- 400-450#/acre new seeding, 200-250#/acre interseeded

LOW DOWN BLUES* #830280P

- 35% Full Moon Kentucky Bluegrass
 - 35% Tirem Kentucky Bluegrass
 - 30% Right Kentucky Bluegrass
 - Superior turf quality at cutting heights as low as 1/2", exceptional choice for fairways: rich, dark green color
 - Excellent leaf spot, summer patch and rust resistance
 - High shoot density wards off weed, Poa annua infestations
 - Rhizomes provide excellent recovery from wear/divots
- 100-120#/acre new seeding, 75-120#/acre interseeded

HARRELL'S PREMIER BLUE/RYE 80/20* #830281P

- 30% Tirem Kentucky Bluegrass
 - 25% Endurance Kentucky Bluegrass
 - 25% Full Moon Kentucky Bluegrass
 - 20% Gray Hawk Perennial Ryegrass
 - Combines quick establishment with long-term durability
 - Excellent dark green color and turf density
 - Tolerates 1/2" cutting height
 - Very durable and wear tolerant
- 150-175#/acre new seeding, 100-125#/acre interseeded

Growing a Better World®

Harrell's Mid-Atlantic Seed Guide

HARRELLS 80/20 RYE/BLUE MIXTURE

#830048P

40% Gray Wolf Perennial Ryegrass
40% Silver Sun Perennial Ryegrass
20% Full Moon Kentucky Bluegrass

- Very quick establishment
- Great wear tolerance

175-200#/acre new seeding, 150-250#/acre interseeded

SILVER SPORT RYEGRASS #830223P

- Reproductive tiller repair damaged turf
- Elite quality, extremely fine blades
- Less top growth, reduced mowings
- Perfect for Sports Turf, Golf Courses or Lawns

130#/acre interseeded, 350#/acre new seeding

LINKS FINE FESCUE MIXTURE #830286P

25% Soil Guard Hard Fescue
25% Bighorn GT Sheeps Fescue
25% Enchantment Chewings Fescue
25% Xeric Creeping Red Fescue

- Attractive fine textured turf
- Low maintenance with low fertility needs once established
- Drought and shade tolerant
- Low growing (1-2 feet) at maturity when left unmowed

150-250# (can be as low as 80-100# for improved playability)/acre new seeding, 150-250#/acre interseeded

TEE AND DIVOT MIX #830044P

80% Enchantment Chewings Fescue
20% PC2.0 Creeping Bentgrass

PC2 hails from Penncross. It looks and feels like Penncross, but it has improved density, leaf texture and overall performance. Enchantment chewings fescue is a quick germinator with a pleasing green color providing quick divot recovery while acting as a nurse crop for the PC2.0 CBG.

SHADY GRASS MIXTURE #830145P

30% Enchantment Chewings Fescue
30% Xeric Creeping Red Fescue
15% Right Kentucky Bluegrass
15% Tirm Kentucky Bluegrass
10% Silver Sport Perennial Ryegrass

- Good powdery mildew and leaf spot resistance
- Quick to germinate and establish
- Widely adapted to sun and shade conditions

150-175#/acre new seeding, 100-125#/acre interseeded

NORTHEAST ROUGH SUPREME

#830025P

30% Xeric Creeping Red Fescue
25% Full Moon Kentucky Bluegrass
20% Enchantment Chewings Fescue
15% Gray Wolf Perennial Ryegrass
10% Soil Guard Hard Fescue

- This mix grows into a lush turf that makes for a spectacular rough on your golf course
- Works well for non-irrigated roughs
- Great coverage in sunny or shady areas

220-250#/acre new seeding, 175-250#/acre interseeded

Bentgrass Varieties

PIRANHA

Bred to excel in high heat conditions. Tests were conducted at multiple sites to identify deep rooted, stress resistance germplasm. Piranha has shown excellent disease resistance to dollar spot and brown patch.

BARRACUDA

Readily establishes, lower upright growth, high tiller shoot density. Color is moderately dark bright green. Colder climate performance, good color, frost tolerance, and snow mold resistance is excellent.

TRIFECTA BLEND

Armor, Nightlife and Kingdom – Recent releases from the Jacklin program. All had respectable ratings in the SERTC trials. Two of these varieties will be combined with L93. Apron/Maxim Treated

T1

Years of proven performance at all levels of maintenance on greens, tees and fairways. Aggressive recovery with low to moderate thatching. Manages very well under reduced irrigation. Unique breeding process makes T1 a proven variety for interseeding success.

ALPHA

Similar performance to T1. Very aggressive recovery on tees and high traffic areas. Alpha also has unique ability to succeed in interseeding programs. Great blender with T1.

PENNCROSS

Penncross bent grass performs under a wide range of conditions making this putting green seed adaptable virtually worldwide. Penncross performs best on a sandy soil and tolerates clay soils with adequate drainage.

PENN A-4

Penn A-4 is dark green with fine leaf texture, exceptional heat and cold tolerance, high density, disease resistance, and aggressive growth habit. It provides a smooth grainless putting surface. Penn A-4 will also provide a good playing surface for tees and fairways.

PENNLINKS II

PennLinks II bentgrass is the second generation of PennLinks and like PennLinks, it has good disease resistance and excellent heat and drought tolerance. In addition, PennLinks II bent grass variety has greater resistance to dollar spot.
