

Dormant Green® Plus

Harrell's SprayMAX®

Dormant Green® Plus

New and Improved Formula.
More Potent. Bolder Color

PRODUCT INFORMATION

Harrell's SprayMAX® Dormant Green® Plus is an organic polymeric colorant designed to provide natural green color on non-dormant, semi-dormant and dormant turfgrass.

RECOMMENDED RATES

Dormant Turfgrass: Apply at a rate of 1– 2.5 gal/acre in sufficient water to provide thorough coverage, not to exceed 50 gal/acre dilution.

Non-Dormant Turfgrass: Apply at a rate of 0.5-1.0 gal/acre in sufficient water, not to exceed 50 gal/acre dilution.

Best Practices for Dormant and Non-Dormant Turfgrass:

- Make subsequent applications of 0.5 –3 gal/acre as needed.
- Apply in the presence of dew, or lightly water prior to application to ensure through coverage of the leaf surface.
- Initial application should not exceed more than 2.5 gallons per acre.
- Do not add a minor element to spray tank

Non-Dormant Turf

Dormant Turf

250 GALLONS (946 liters)

30 GALLONS (113.52 liters)

2.5 GALLONS (9.46 liters)
Weight per gallon: 9.09 lbs.
